

Purple Keys Premium Hospitality Management Solution

Purple Keys is a streamlined hospitality management system designed for premium hotels and resorts of 5-star and above category. The customizable, fully-integrated solution offers dynamic property management tailored to your needs, simplifying the complexities of property management. This sophisticated and comprehensive solution offers control on every crucial front and back-end business operations – from reservations, accounting needs, management of inventory, and beyond – providing an excellent foundation for premium hotel management.

As its mobile extension, Purple Keys also comes with three mobile apps – Nucleus App showing essential information from properties, MIS App showing the management information in your smartphones, and CRS App that enables you to manage the reservations of your hotels. These mobile apps are optional and the client can choose, if required.

With Purple Keys, the hotels can forget the hassles of business management and focus on delivering outstanding services to guests.
