Infosolutions (P) Ltd

## Building a Smarter Business Ecosystem using Technology

# 30

### 30 Years of Expertise

Datamate Infosolutions stands for quality, innovation and excellence. We harness the power of cloud, analytics, mobility and business intelligence to help our clients navigate through the ever-changing world of the digital era. Datamate is a pioneer in designing, developing and implementing business software solutions, primarily for **healthcare** and **hospitality** sectors.

## Hospital Information System

### Your Trusted Partner for Success

Ellider Advanced Hospital Information System is a state-of-the-art, 360-degree software solution that automates the clinical, EMR, inventory, financial, administrative, and other back-office functions of the hospitals. The Ellider HIS was designed and developed by healthcare domain experts, infusing it with powerful functionalities that help healthcare service providers transcend organizational challenges.

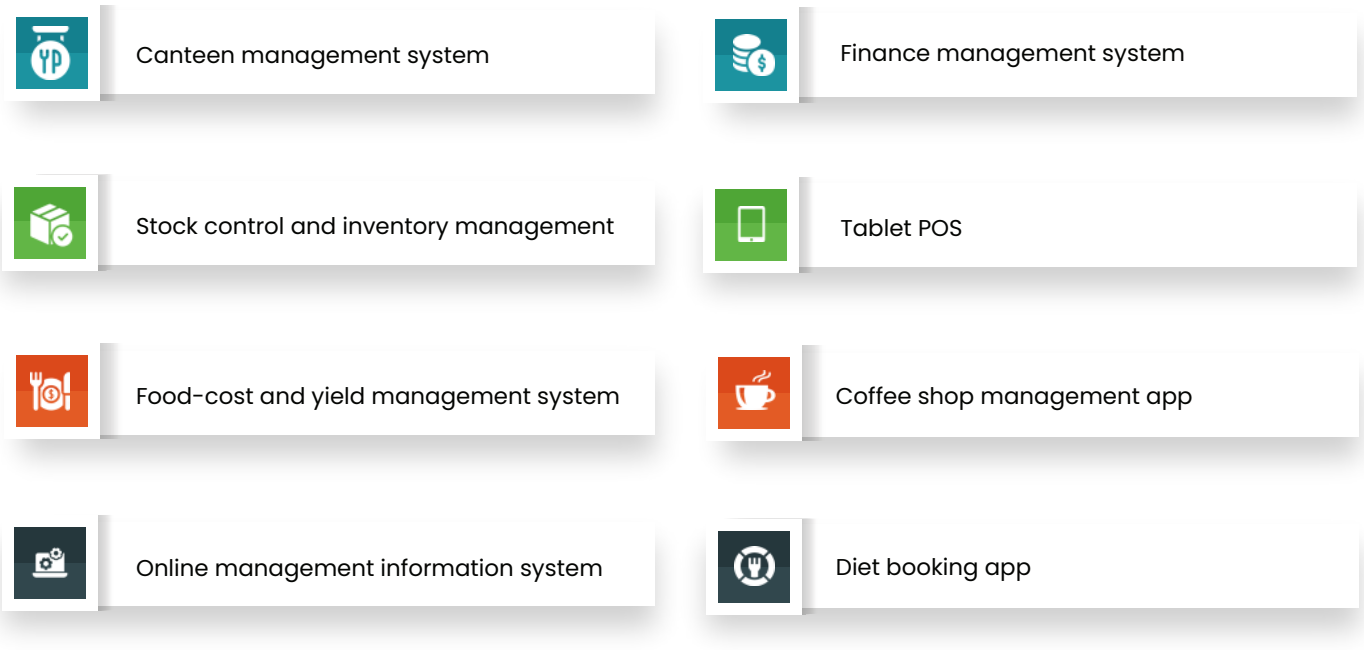

## Canteen Management System for Hospitals

### One-stop solution for hospital cafeterias and canteens

Canteen Management for hospital is a cumbersome task. Food and Beverages extension of Ellider Hospital Information simplifies and automates the complete end-to-end processes of a hospital canteen. This centralized solution brings multiple canteen outlets to a single management umbrella, connecting them to the inpatient needs of patients and bystanders.

Being one-stop solution for managing hospital canteens

Available as standalones and interfaceable!

## pStation PACS

### (Picture Archiving and Communication System)

### Improve your hospital's imaging experience with a simple solution.

#### Archive-based system

Retrieve images on demand, without the need to push and cache them in each client computer.

#### Cross-platform

The solution is compatible with Windows, Linux, MacOS, and mobile platforms Android and iOS. It also works on HTML5-compliant web browsers.

#### Interfaceable with EMR

Make the data from imaging equipment available to clinicians within an EMR.

#### Advanced high-quality visualization tools

We offer a suite of multispeciality tools that enable clinicians to gain a clear-cut visualization of their patients' conditions.

#### Zero cost on films and printing

Automate your entire workflow to save money on prints and purchase of films.

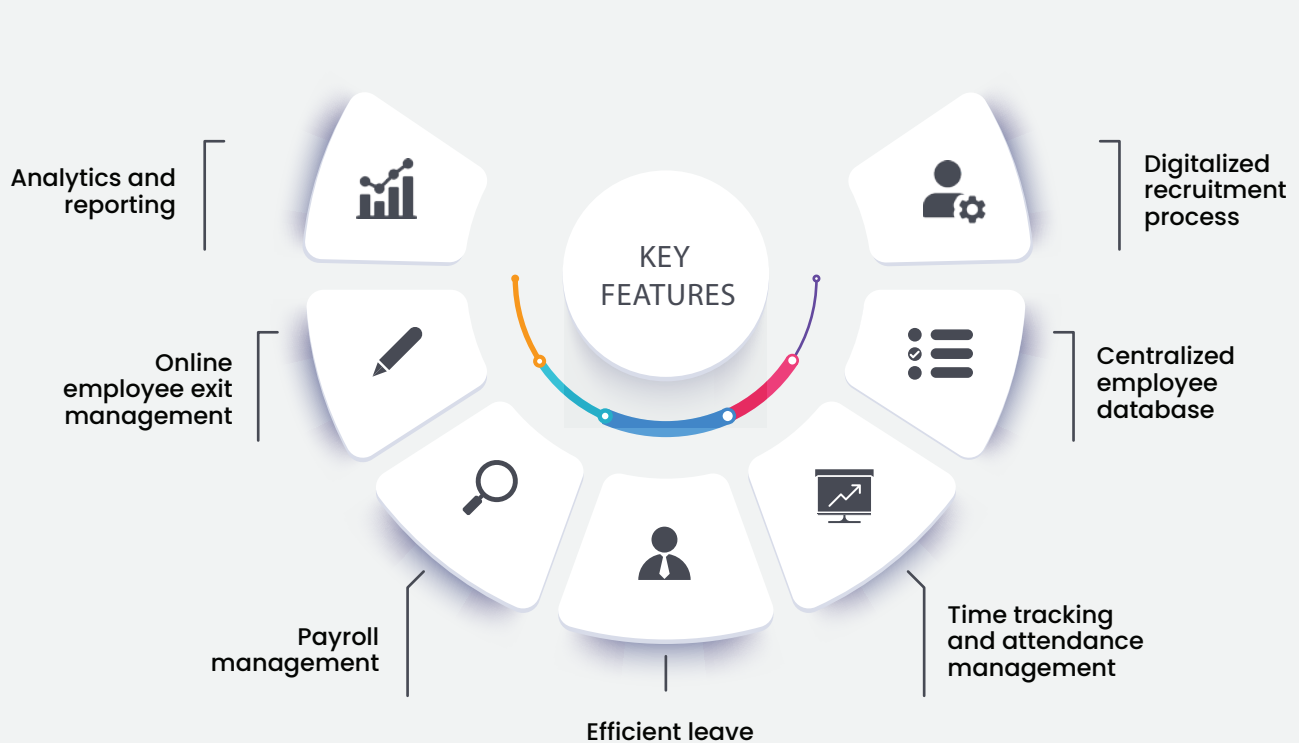

## Human Resource Management System

### It's time to simplify employee management

Primato Human Resources Management System is carefully designed to automate the complete HR processes of organizations. Designed and tested by recruiters themselves, Primato helps HR executives to focus on improving your biggest asset - the employees, rather than on paperwork.
