

Role: Flutter Developer

Location: Kochi

Qualification: Any Graduate/Diploma

Experience: 0 - 1 year of experience

We are seeking a skilled and passionate Flutter Developer to join our team. You will collaborate with cross-functional teams to define, design, and ship new features, ensuring high application performance and responsiveness.

Required Skills:

- Flutter: Proficiency in Dart and Flutter framework with 2+ years of experience.
- Mobile Architecture: Strong understanding of mobile app development lifecycle and design patterns (e.g., MVVM, MVC, Bloc).
- Local Databases: Expertise in working with databases like SQLite, Hive, or Moor for offline data storage and synchronization.
- State Management: Experience with state management tools like Provider, Riverpod, or Bloc.
- UI/UX: Ability to create pixel-perfect UI that matches designs.
- RESTful APIs: Proficiency in integrating APIs and handling JSON data.
- Version Control: Hands-on experience with Git and Git-based workflows.
