Role: IT and Systems

Location: Kochi

Qualification: Any Graduate/Diploma

Experience: 2+ years of experience

We are seeking a skilled IT and Systems Executive with at least one year of experience managing IT infrastructure. The role involves working with Red Hat Linux, Microsoft Server environments, and virtualization technologies, with Oracle Certification (OCP) considered an advantage.

Key Responsibilities

- Install, configure, and manage Red Hat Enterprise Linux (RHEL 8/9) systems, including networking and Kernel-based Virtual Machine (KVM) environments.

- Administer Microsoft Server 2019/2022, including IIS, domain controllers, Network Load Balancing (NLB), staging servers, FTP, and Hyper-V virtualization.

- Install and configure Oracle databases under Linux

- Perform troubleshooting, optimization, and database maintenance.

- Monitor and enhance server security and optimize network configurations.

- Implement updates, backups, and disaster recovery protocols.

- Maintain documentation of configurations, procedures, and system changes.

- Generate reports on system performance and security.

Skills and Requirements

- Red Hat Certified Engineer (RHCE) on RHEL 8/9.
- Oracle Certified Professional (OCP), Microsoft certifications.
- Proficiency in Linux and Windows Server administration.
- Experience with virtualization technologies (KVM, Hyper-V).
